OFFICE ACTION AMENDMENT AND RESPONSE

In response to the Office Action dated May 18, 2004, the following amendment and remarks are submitted:

*Entry not recommended
TVT (9/26/05)*

IN THE DRAWINGS

Substitute drawings are provided herewith. The Examiner objected to the previously submitted drawings because they did not show a shut off switch 114 which is described and claimed within the pending application. In the substitute drawings, at Figure 9 an electrical contact shut off switch 114 is shown.

REMARKS

An Office Action was received on May 18, 2004, in which the Examiner allowed Claims 1 -16 but objected to the drawings for failing to show a structural detail, namely an electrical shut off switch. On July 16, 2004, Applicant submitted revised formal drawings showing the electrical shut off switch in Figure 9. Applicant, however, did not submit a formal response to the May 18 Office Action. Substitute drawings are being provided which address the Examiner's objection. Accordingly, Applicant asserts that the pending application is in condition for allowance.
